

Public Works Department Director's Office

Date: February 27, 2020
To: Earnest Rouse, City Manager
From: Sherri K. McIntyre, Director of Public Works
Subject: Pothole Repair - State of Emergency Plan

Due to the state of the road conditions and the number of potholes throughout the City of Kansas City, MO; I am requesting the City Manager to approval the request to declare a "State of Emergency on pothole repair" for the City with immediate adoption.

This status will allow for mandatory overtime for Public Works' maintenance workers and to contract with outside sources to conduct an immediate citywide repair service.

This plan will be effective immediately and last for about 4 weeks.

Approved:

Earnest Rouse, Acting City Manager
